Through generous support from our Board and the Kent Trust for Youth Sport, Kent Sport is able to support clubs and organisations who have innovative ideas that encourage and support people affected by the impact of COVID-19 to be active, and to support those returning to action by funding new programmes that re-engage with their previous audience or encourage those new to activity to continue to be so.

Organisations funded through the Kent Sport Everyday Active Emergency small grant fund.

Please note: the number of organisations receiving funding is growing daily and that this list is updated frequently.
