

Pass The Passion - A Torch song for Dover!

At the museum there's a bronze age boat
Who could believe it was once afloat
Standing at the pier watching the port
Waiting for the the flame that celebrates sport

(Chorus)

Pass the passion and light the flames
We're all off to the Olympic games
Pass the Passion and bring it through Dover
Light the light and it'll never be over

Come and see the castle and the beach
Our beautiful town is in easy reach
The magnificent castle way up high
Look up at the view, my oh my

(Chorus)

Sailing to Britain
The cliffs look so white
Oh my goodness
What a lovely sight

(Chorus)

An ancient town joined in desire
To bring the torch and light the fire
A gathering to England with tunnels and caves
Nations are travelling across the waves

(Chorus)

Here in the past for the military
Here in the future for you and me
As its always been throughout history
This town - the Gateway of Unity
